Controversial Bishop Daniel Obinim has justified why he gives lotto numbers to members of his congregation.

According to him, even the get to heaven or hell is a kind of lottery human being must engage in to get eternal life.

"There are so many types of lottery. Mentor is lottery, Icons is lottery, The Pulpit is lottery, promotions from petrol stations are lottery, I even helped someone to win a Vodafone lottery, HEAVEN and HELL is also lottery".

Bishop Obinim who is the founder and overseer of International God's Way Church disclosed this in an interview on UTV in Accra.

The self-acclaimed Angel has been condemned by many including men of God who claim many of his [Obinim] antics are unbiblical.

Bishop Obinim claim of his ability to metamorphous into all kinds of animals including a snake gave more credence to allegations that he is an 'Anti- Christ'.

But in defence, he said it is the angelic spirit in him that enables him to turn into different animals.

"The angels empower me and I also speak to my father Jesus every day. They all give me powers" he stated.

Bishop Obinim appealed to Ghanaians especially pastors to understand the working of the spirit before judging him.
